

Descriptive AI Metadata™ for Asset Management

AI-powered technology that revolutionizes how the world works with visual content.

AI-POWERED ASSET MANAGEMENT

—
Instantly categorize visual content as it is uploaded to your platform, making it quickly searchable via intuitive AI models.

SUPER EASY TO INTEGRATE

—
We seamlessly integrate with asset management platforms around the world. Our solutions are easy to install and designed for anyone to use.

ABSOLUTE CONTENT PROTECTION

—
Keep your data securely with you: our SDK installs directly in your systems giving you unparalleled privacy and speed.

STREAMLINED PRODUCTIVITY

—
Prioritize your visual content to accelerate workflows and reduce content search times.

What can Mobius Labs do for you?

Automatic Image and Video Keywording

Our AI analyzes new images and videos with human-like perception and automatically tags them with precise keywords.

Facial Recognition and Demographic Analysis

Search for specific people and demographics in both images and videos. Anyone can be added to your database using only a single portrait.

Similarity Analysis to Find Related Assets

Stop spending a huge amount of time looking for the right visual assets.

Trained on Little Data, Requiring No Expertise

Train new models using very little amounts of your own data in order to suit specific business needs.

Score Content with Aesthetic Ranking

Our solution learns your visual style to bring your best assets to the forefront while sorting out the undesirable.

An SDK with Unparalleled Speed and Efficiency

Our models are as small as 5Mb and can be installed directly on hardware with no network connection required; objects are detected at 52ms per image.

Advanced AI descriptive metadata solutions that can be deployed on premise or in the cloud.

Visual DNA

Transforming how we think about video ingest, tagging, search and archive with granular AI tagging and advanced face recognition.

Mobius Audio

A suite of complementary audio tools with state-of-the-art speech-to-text and on-the-fly English translation capabilities that further supercharge your asset management system and the value of your content.
